A QUESTION ANSWERED.

"What has the Silver Party done for silver?" is the oft repeated query of the Republicans.

One sees from every side evidence of what the Silver party has done for silver, among other things it has roused the Republican party from the twenty year lethargy and caused it to have "silver sentiments" as our friend across the street expresses it.

The revolt of Nevada against the gold bug bosses, who run the old parties, has caused the world to open its eyes, and begin to consider the silver question. For the first time in twenty years the old party State Conventions are beginning to "resolve" that silver is a money metal and should be protected as such.

While the Silver party has forced the old parties to take up silver and make it a national issue the old parties are anxious to have the credit of doing what they had to do, and would never have done of their own free will.

But for the silver men of the West rising in their honest anger and demanding their rights there would be no silver agitation in any part of the United States at the present time.

Our Republican contemporaries are continually calling attention to the fact that the Republican Conventions are adopting silver planks, and want their party to have the credit. Why are they not honest enough to tell the truth and say:

"In consequence of the silver agitation started by the silver men of the West two years ago, the Republican party is getting alarmed for its future, and is adopting silver planks in party platforms to try and get the silver men back into line."

But we will not go back, we have cut loose from cowardly associates, treacherous leaders, and formed new lines and new leaders, who are willing to fight for silver. The line of battle is where the Silver party stands today. Those who wish to fight for silver can very easily find the ground where the brunt of the battle lies. It is under the flag of 16 to 1 and the army is on the march.

WRONG AS USUAL.

The writer on the Enterprise who was imported from the East—pedigree, sired by D. O. Mills and damned by the people of Nevada—thinks he has struck a rich find and accuses the editor of the Silver State, in his business transactions as executive officer of a banking establishment in this State of exacting the payment of all obligations in "U. S. gold coin." Not for the information of Mr. Mills' "hired man," but for others who may have read the article, we will say that the accusation is a lie and the fellow was simply jumping at conclusions when he wrote it. For over four years every obligation due to the institution referred to has been paid in "lawful money" and we defy any one to prove otherwise. We believe in being consistent, and it was because of that we renounced the Republican party, as we could not see how any one could be in favor of free coinage of silver and support a political party that was determinedly opposed to it.

During the last session of the legislature the editor of this paper drafted a bill and handed it to Senator La Grave of this county who introduced the same, and it is now a law in this State. It reads as follows:

On and after the passage of this act, all official bonds and undertakings, and also all obligations of debt, judgments and executions stated in terms of dollars and to be paid in money shall be payable, all stipulations in the contract to the contrary notwithstanding, in either standard silver or gold coins and other legal money authorized by the congress of the United States.

The same can be found upon page 21 of the statutes of Nevada for 1893. It therefore makes no difference in Nevada what the obligation or bond may read, it can be legally paid in silver money or any other kind.—Silver State.

FORCE THE ISSUE.

There is but one way to get silver remonetization and that is to force it, by keeping the flag of political re-

volt floating over the West and as long as that flag floats the gold men will know that the fight is on.

The Republican leaders of Nevada are continually pointing to the silver planks that the Eastern Republicans are adopting and in the next breath ask us what our silver agitation has done for silver. If these planks are genuine the query as to what we have done is very readily answered.

We have forced Eastern politicians to insert silver planks in their platforms. They never bothered themselves about the necessities of silver legislation until after the West read its riot act. If these planks are not genuine then the necessity of continuing the revolt is apparent to the most casual observer.

'49 Camp Litigation.

Richard Foote, the actor, is suing the '49 Camp Company for \$125. The '49 Camp Company sold Foote a piece of ground, took his money and never allowed him to occupy the premises. The ground was close to the gate of the '49 Camp and Jim Love, manager of the Camp, kicked up a row with Mr. Foote as an excuse for getting him away from the gate. He was then preparing to "razzle" the gate receipts and did not want Foote, a theatrical man, in sight of the gate, as he feared Foote would detect him in his thievery. This is how the row started. Foote out of the Camp after he had purchased the ground and paid his money. Foote ought to win his suit.

A Suggestion.

EDITOR JOURNAL.—As the corporation goldbugs seem desirous of making this a personal campaign and style the Silver party "Wallace's party," the People's party "Dr. Hogan's Party," the Democratic party "Harris' party," permit me to suggest the propriety of naming the Republican party "the Yerington-Fulton Combination." I venture the assertion that there is more railroad influences at work in the Yerington-Fulton Combination than in all the other parties combined.

A School Election Decision.

In the case of Webster vs. Rule, the trustee elected in Reno, May 28, as School Trustee, Judge Cheney has decided against Rule and he is deprived of his office.

The Court decided that there could be but two trustees elected instead of three.

Dr. Guinan has started a similar case against Cutts elected in this county at the same election.

The cases are similar and Judge Cheney's decision sets a legal precedent.

At the Senate investigation at Chicago yesterday it was shown that where Pullman paid employees \$28 a month he charged \$17 a month for rent.

People who contemplate a trip to the mountains for an outing can not do better than pack up and go to the Rubicon Springs. The best way to reach the Springs is by McKinney's Lake Tahoe, thence by stage eight miles, through a wild and picturesque country. Wade Clarke the proprietress, has made a number of improvements and the place is more attractive than ever before.
